

The logo for VINBOT, featuring the word "VINBOT" in a green, sans-serif font. The letter "O" is replaced by a green leaf icon.The background is a stylized illustration of a vineyard. It features a green silhouette of a vineyard layout, a large rainbow arching across the top, and a series of concentric yellow and green circles on the right side. The bottom of the image is filled with blue and white diagonal stripes, representing rows of vines. Several purple molecular or network-like structures are scattered across the lower half of the image.

THE POWERFUL PRECISION VITICULTURE TOOL TO BREAK TRADITIONAL YIELD ESTIMATION IN VINEYARDS

VinBot is an all-terrain autonomous mobile robot with a set of sensors capable of capturing and analysing vineyard images and 3D data by means of cloud computing applications, to determine the yield of vineyards and to share information with the winegrowers.
